TECHNOLOGY OF PARTICIPATION

*Building facilitation capacity in Nebraska, Iowa,
South Dakota, Kansas, and Missouri*

Advanced Methods

DEEPEN YOUR SKILLS AS A FACILITATIVE LEADER

Expand your leadership toolkit with an array of techniques for designing, launching and sustaining projects with groups of all kinds.

Approaches to Environmental Scanning (1 day)

Learn 10 different ways to understand customer, staff or community perceptions and needs, explore relevant data, and get groups on the same page to launch their work.

Strategic Planning (2 days)

Weave a variety of ToP Facilitation Methods into an integrated approach to strategic planning, resulting in strong consensus around a realistic, achievable, measurable plan.

Secrets of Implementation (2 days)

Explore a spectrum of powerful tools to help you dynamically launch plans, sustain momentum over time, realign projects in process, and bring them to strong closure.
